## MYSQL CONNECTED AND STORED IN MYSQL WORKBENCH:

The screenshot shows the MySQL Workbench interface with a local instance of MySQL80 connected. The left sidebar displays the 'SCHEMAS' tree, with the 'demo' database selected. Under 'demo', the 'users' table is highlighted. The 'Table: users' section shows the following columns:

Column	Details
id	int AI PK
name	varchar(45)
email	varchar(45)
country	varchar(45)

The main query editor shows the following query:

```
1 • SELECT * FROM demo.users;
```

The 'Result Grid' displays the results of the query:

id	name	email	country
13	Adithya	adi@gmail.com	India
14	Kalaiaarasi S	kalaithen2002@gmail.com	India
15	ragx g	ragv@gmail.com	India

The 'Output' section shows the 'Action Output' for the query:

#	Time	Action	Message
1	20:45:50	SELECT * FROM demo.users LIMIT 0, 1000	1 row(s) returned
